

Lebanon City Schools Test to Play

Parent or Guardian Consent for COVID-19 Rapid Antigen Test

You have opted for your child to participate in the Test to Play option for students exposed to COVID-19 in school or a school-related activity.

How does the COVID-19 test work?

The test being used is called the "BinaxNOW COVID-19 Ag Card". It is made by Abbott Laboratories. The test detects tiny pieces of the coronavirus called proteins. The test can be performed quickly with results in about 20 minutes. The test is performed using a swab that is put in the nose. The swab looks like a typical cotton swab (Q-tip). It is put up a nostril no more than one inch, rotated 5 times, and then repeated in the other nostril. Reagent is added to the test card, per the test instructions or proctor guidance, and the swab is then inserted into the test card. If being tested at school, the test will be administered by a trained administrator.

How often will the children be tested?

If a child is a direct contact, the child will be tested up to two times. The first test will be given immediately upon identification that the student is a direct contact of a positive case. The second test will be conducted on days 5, 6, or 7 after the last day of exposure.

What will happen if my child has a positive coronavirus test?

If your child has a positive test, the child will need to stay home from school. You will need to plan to keep your child isolated and away from other children and other family members as much as possible. And you'll need to wear a mask to protect yourself when you are close to your child. Usually, a child must stay home for 10 days after a positive COVID-19 test. The local health department will give you more information if this happens.

If I want more information, who should I contact?

Jamie Buchert

COVID Coordinator

p. 513-934-5889

buchert.jamie@lebanonschools.org

Katja Pursell, LPN

WCESC COVID Nurse

p. 513-934-5797

pursell.katja@lebanonschools.org

I have read the information above. I agree to allow my child to be tested for COVID-19 as part of the Test to Play quarantine option.
