Dear Parent and Physician:

If your child must have medication of any type given during school hours, including overthe-counter drugs, the following is our school's policy:

- 1. You may come to school and give the medication to your child at the appropriate time(s).
- **2.** You must utilize the attached Administration of Medication permission form which must be completed by you and your child's physician if you wish for school personnel to administer the medication.

You and your physician must complete and sign all sections of the form or it will not **be accepted.** Students are not permitted to carry medication at anytime, including to and from school. If your physician feels it necessary for your child to carry an inhaler, this must be indicated on the attached form. If your physician feels it is necessary for your child to carry an epinephrine injection, then please contact your school nurse to obtain a different permission form. Please understand that if you and your physician choose for your child to carry his/her EMERGENCY medication, then you are assuming responsibility that your child has the knowledge to self-administer at appropriate times, will not allow another student to have access to the medication, and we may not be able to locate the medication in the event of an emergency. Prescription medicines must be in a pharmacy labeled bottle which contains instructions that match the physician's order on how and when to give the medication. Again, students are not permitted to carry medications, except for emergency use as stated above. You must bring the medication to the office. Over-the counter medications must be in the original container labeled with your child's name. The attached form must be completed each year for both prescription and over the counter medications.

3. You may discuss with your doctor an alternative schedule for administering medications (e.g. outside of school hours).

School personnel will not administer any medication to students until they have received a medication form completed by you and your doctor as explained above. In fairness to those giving the medication and to protect the safety of your child, there will be no exceptions to this policy. If you have any questions about the policy, please contact the school nurse at your child's building.
