KINDERGARTEN
IMMUNIZATION REQUIREMENTS

Ohio State Law requires that the following immunizations be obtained for school enrollment. Students who do not have the required immunizations will be excluded from school per Ohio State Law until such record is provided. You must bring an immunization record with the month/date/year for each of the shots below to Kindergarten Registration in order to complete enrollment requirements.

- **5 - DPT** (Dose 5 required if 4th dose given prior to the 4th birthday)
- **4 - Polio** (Dose 4 required if 3rd dose given prior to the 4th birthday)
- **2 - MMR** (this is a combination of the measles, mumps, rubella vaccines)
- **3 - Hepatitis B**
- **2 - Varicella** (chickenpox) – (or documentation of having disease)

Please contact your family physician or the Warren County Health Department at 695-1468 to arrange for your child to receive the required immunizations. If you have any questions concerning your child’s immunizations, please contact the LWECC nurse’s office at 934-5486 or the Health Department at 695-1468. Also, please have your physician and dentist complete the attached pink Kindergarten Physical form and return it to the office, prior to the start of school.

In closing, if your child has any medical concerns (i.e. seizures, diabetes, hemophilia, heart condition, etc.) or will require medication during school hours, please contact the LWECC nurse’s office at 934-5486 before the start of school. Please also list this information on the blue Student Health History form - there are certain permission forms that will need to be completed and it may be necessary to create a medical plan to ensure your child’s safety at school. Please remember that student health information will be shared with school personnel unless you request otherwise. In addition, all kindergartners will receive a vision and hearing screening in October as part of our health program. We look forward to meeting your child in the fall.

Thank you,

Laura Coffey, RN, BSN, M. Ed.
Angela McKellop, RN, BSN
