

THIRD Third grade GRADE

Dear Third Grade Students and Parents,

Welcome to third grade at Donovan Elementary School! We are so excited to begin third grade with you! This year will be filled with so many fun and exciting activities. To prepare for the school year, here are some tips to get ready for third grade!

1. Please practice addition and subtraction facts to 20. We will be moving into multiplication and division and it is important that these facts are fresh in your mind!
2. Read!! Read any types of books to help with your pace. When you finish the book, let your parents ask you questions about it. Try finding proof of your answer in the text.
3. Keep working on typing! We will be on Chromebooks a lot throughout the school year. You can start practicing now at www.typingclub.com.
4. Have your supplies ready and labeled! When buying headphones, earbuds are preferred rather than over the ear headphones as they are easier to store.
5. You can use the EZ Pay linked on the Lebanon schools website to pay any school fees.

We are so excited to meet you! We will have a wonderful year together!
